M. M. Sablough

Animator, Graphic Designer, 3D Artist

Website: www.moehefin.com

Professional Motion Graphics Designer and Graphic Designer with over 5 years of experience. Skilled in Branding, Design, Animation, and 3D Modeling. Experienced in identifying the needs of a brand to thrive, finding solutions to meet a client's brief no matter how high the expectations, and handling many client brands at once with ease. Passionate about making businesses grow, identifying flaws in the marketing model and amending them.

> WORK EXPERIENCE

Lead Animator & Graphic Designer

Aug 2018 - Present

FIDO Communications / Doura, Lebanon

- Hired as a Junior Animator & Graphic Designer I worked closely with my senior to help them with their workload.
- After 2 months, the Senior Animator & Designer left abruptly leaving me as the only person with Motion Graphics skills in the company. I quickly proved that I was able to handle his workload along with mine with ease and I've been managing to this day to remain as the only Animator the company needed for over 3 years even with our client base growing to about 3 times what it originally was when I started.

Creative Brand Director

Part-time Sept 2020- Present

EducaUS / Tunis, Tunisia

- As a company looking to establish their brand and assert their superiority over all the competitors in the country, I created a brand design that would hold up to those claims and work on upholding the high status of the company through marketing.
- The company grew with me as their Creative Director and decided to spread into the creative field as some of the owner's friends with companies of their own were asking if I could help them with their branding.
- The company, which is an education center that prepares students to study abroad with one of the universities they have contracts with, grew from taking around 60 students a year to 2 universities around the world in 2020 to now taking 250 students in 2021 to 6 universities and currently looking like there will be 280 students in 2022.

Forensic Imagine & 3D Crimescene Reconstruction

Mar 2018 - April 2018

Zurich Institute of Forensic Medicine / Zurich, Switzerland

- I had the honor of working with the Zurich Police Department & the Institute of Forensic Medicine to help develop an innovative way of making Autopsies less invasive through 3D Modeling and 3D Scanning techniques!
- **Reason for Leaving:** 1 Month Contract

Lead Graphic Designer

Aug 2017 - Mar 2018

AMCTag / Tripoli, Lebanon

- Started as the only Graphic Designer for an otherwise Mobile App development company to help with graphics needed for phone apps and a small array of clients.
- After 3 months, the client base started to grow and required more design work and I was promoted to Lead/Senior Designer to manage the new designers joining the company.
- **Reason for Leaving:** Better Opportunity
